Student Journey

Choose your path to learn English

At Malvern House each of our students has a unique journey that maximises their learning stay. There are four core student types and each has an individual experience with us.

During this consultation, the student's language level is diagnosed and progress and exit levels are set out to guide the student toward their end-of-course aims.

Fluency in the English language is becoming increasingly important and it's a skill best developed from a young age. With this in mind, the Language Explorer helps younger students develop their English language through fun and engaging English language programmes in the UK, Ireland and Cyprus.

Small individualised classes, as well as a mixture of academic and activity-based learning means your child will experience substantial progress in English as well as having great fun.

There are four different types of courses available:

1. The Original Explorer

The most popular choice for students aged from 7 to 17 offers fifteen hours of English per week with a varied out-of-class and excursion package.

2. The City Explorer

An academic focused course for teenagers aged between 16 and 19, aimed at improving students' ability to communicate effectively in English.

3. The University Explorer

For international students who are planning to follow a degree course at an English-speaking university. This programme prepares the student for university life, combining IELTS exam preparation lessons, as well as academic English to develop key skills of critical thinking, academic writing and others required for success at an English-speaking university.

4. The Apprentice Explorer

An innovative course, offered for students aged 13-17 years who are interested in being exposed to the world of work as they learn English. Students get to design and market a product, devise and promote an event, and produce and market a promotional video. Ideal for budding entrepreneurs or for those simply wanting to enjoy a taste of the working world.
