Scale of Language Proficiency and Progress

Our Scale of Language Proficiency is a specialized English proficiency scale which can be an accurate reference to many other popular language proficiency tests around the world.

By following this, students understand their individual skill levels, can effectively communicate with their teachers regarding their learning objectives and demonstrates how our staff can help students to achieve their desired goals.

With the Progress Chart you can see how much language practice you might need to reach the aim you have set yourself or how much progress you would make in the time you have available.
